

Controlled Signalling

Please ensure you meet all of the pre-requisites before booking a course

Purpose & Content	This course studies in depth nearly all aspects of controlled safety signalling on London Underground – plus some aspects of non-safety signalling. The delegate will learn to design, test and - most of all - fault find on signalling equipment in a controlled area. This course brings together many parts of the delegates knowledge from previous courses and prepares them for the IRSE licensing as well as their role as Technical Officers
Pre-requisites	Electrical Theory, Basic Signals, Basic Mechanical, Four Foot points, Intermediate Signals
PPE	Track Boots, Hi-Vis Vest and Safety Glasses
Course Duration	11 Weeks
Success Criteria	Assessments require a Minimum 75% Pass Mark on each of the Course Modules
Certification	An industry recognised certificate awarded by Tube Lines in association with Catalis Rail Training

Please ensure that you have all of the required documentation with you on the day of the course in order to be able to undertake the training event

Beverages, snacks and hot meals are available for purchase on site using a cash free system. Delegates will need to purchase £2 Pre-pay Card which is refundable after the event. Please ask our staff if you have any queries
